SUMMARY

Computer Science student experienced in developing **full-stack and backend applications** using **Java, Spring Boot, React.js, Node.js, Express.js, Python, SQL, MongoDB, Docker**, and **cloud platforms**. Skilled in **REST API development, authentication systems, database management, cloud deployment, and software engineering fundamentals**. Strong foundation in **Data Structures & Algorithms, Object-Oriented Programming, Agile development, and problem-solving**, with a focus on building **scalable, secure, and reliable software solutions**.

EDUCATION

C.V. Raman Global University

B.Tech in Computer Science Engineering — CGPA: 8.30 / 10.0

Oct 2022 – Apr 2026

Bhubaneswar, Odisha, India

WORK EXPERIENCE

Pinnacle Labs

Jun 2025 – Jul 2025

Web Development Intern

Remote

- Enhanced **frontend-backend communication**, improving application responsiveness and user experience.
- Troubleshoot **API integration issues**, validated endpoints using **Postman**, and supported software testing activities.
- Created **reusable components**, reducing maintenance effort and code duplication.

AICTE SkillBuild & IBM Platform

Jul 2024 – Aug 2024

AI & Cloud Intern

Remote

- Deployed an **AI chatbot** on **IBM Cloud**, achieving **90% query accuracy**.
- Automated **cloud workflows**, reducing manual effort by **25%**.
- Supported **cloud-based application deployment** and testing activities.

PROJECTS

QUIZKIT – QUIZ MANAGEMENT PLATFORM | Java, Spring Boot, Spring Security, JWT, Hibernate, MySQL, React

- Created a **full-stack quiz platform** with role-based authentication and **JWT security**.
- Designed and exposed **REST APIs** for quiz, user, and result management.
- Managed **CRUD operations** using **Spring Data JPA** and **MySQL** within an **MVC-based architecture**.
- Validated API functionality using **Postman** and performed backend testing to ensure reliability.
- Implemented **authentication and authorization** using **JWT, Spring Security, and BCrypt password hashing**.

EXPENSE INTELLIGENCE AI – EXPENSE TRACKER | MERN Stack

- Delivered a **MERN-based expense tracking application** with transaction analytics and reporting features.
- Handled **transaction management** through **CRUD operations** and **REST APIs** using **Express.js** and **MongoDB**.
- Enforced **JWT-based authentication** and role-based access control to secure user data.
- Tested **REST endpoints** using **Postman** and verified data consistency across application workflows.
- Structured **reusable components** to improve maintainability, scalability, and code quality.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, SQL

Frontend: React.js, HTML5, CSS3

Backend: Spring Boot, Node.js, Express.js, Flask, REST APIs, Spring Security, JWT Authentication

Databases: MySQL, MongoDB

Cloud Platforms: AWS, IBM Cloud, Docker, Git, GitHub Actions

Testing & Tools: Postman, API Testing, Unit Testing, Jira

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), SDLC, Agile Methodology, MVC Architecture, CRUD Operations

Development Practices: Authentication & Authorization, Software Testing, Debugging, Troubleshooting, API Development

CERTIFICATIONS

- API Test Automation with Postman - **Test Automation University (TAU)**
- Oracle Cloud Infrastructure 2025 Certified Foundations Associate - **Oracle**
- Master AI for Web App Development – **Simplilearn SkillUp**

ACHIEVEMENTS

- Qualified 1st Round of **SIH 2024 Hackathon** among **60+** teams.
- Secured **Rank 6333** in **CodeKaze'24**, a national-level competitive programming contest organized by **Coding Ninjas**.

LEADERSHIP & ACTIVITIES

- Led **30+** members as **Photography Club President**, managing events and team coordination.
- Coordinated **Literary Club activities**, ensuring timely execution and high-quality event delivery.
- Assisted the Cultural Head in managing **event operations**, including graphics design and photography for college fests.
